In the matter of 11-65:

I, Lilliana Harte, formally object to the merger of T-Mobile and AT&T. I formally object to AT&T's proposed acquisition of the company. Because of this merger consumers will be forced into a monopoly where AT&T and their silent partner Verizon control most of the United States' cellular market. This will also affect workers, stores, and the economy. We cannot afford more job losses, higher fees, and corrupt corporations in our country. With the high unemployment rate this is only going to badger workers of T-Mobile, small store owners, and dealers. This merger must be stopped for the good of the United States and to protect the integrity of the consumer, worker, and business owner nationwide. Please listen to the request and commentary of the public who do not want this merger and feel that this merger will be punitive for the consumer, small business, worker, and employee of T-Mobile.

With Regards,  
Lilliana Harte
